

QUIK-SET

Gypsum Cement

Description QUIK SET, gypsum cement, is a high strength, adaptable cement product designed for addressing loss of circulation environments, securing directional wedges, accelerating Portland cements or cementing pre-collar casing.

Applications/Functions

- Cement pre-collars in place
- Plug off lost circulation zones
- Set as a plug for wedging operations

Advantages

- Promotes reduced set times and rapid strength development of cement
- Provides versatile solution for multiple cementing applications

Typical Properties

- Appearance White to tan powder

Recommended Treatment

- Recommended Water Requirement: 0.4 – 0.625 liter/kg of QUIK-SET
- Recommended Mixing Ratio: 8.0 – 12.5 liters/20-kg of QUIK-SET

Note: Temperature and quality of water may affect ultimate set time of QUIK-SET

Packaging QUIK SET is packaged in 20-kg plastic drums.

Availability QUIK SET can be purchased through any Baroid Industrial Drilling Products Retailer. To locate the Baroid IDP retailer nearest you contact the Customer Service Department in Houston or your area IDP Sales Representative.
